

Lithium-Ion (LiFePo4) Electric Golf Trolley Batteries

Kinetix latest range of ultra long life, ultra compact & light weight, Lithium-Ion (LiFePo4) Golf Trolley batteries. Even the smallest model (16AH) will comfortably exceed 18 Holes on a single charge whilst the larger with version is capable of 36 holes or more. With a design life equivalent to around 2000 rounds of Golf, they offer more than five times the life span of traditional Lead Acid AGM batteries yet are only a quarter of the weight!

These batteries are compatible with the vast majority of Golf Trolley's on the market today including the big names such as Powakaddy, Motocaddy, Hill Billy and many more! Comes as kit supplied with neoprene weather resistant carry case, T-Bar adapter lead and Charger.

Superb performance, durability and longevity, combined with ultra light weight portability! A must for the serious Golfer!

Outstanding features:

- **LiFePo4** Lithium Ion batteries: **18 Hole (16AH)** or **36 Hole (22AH)**
- Capable of up to 2000 charging cycles or around 2000 rounds of Golf
- Incredibly light weight at only 2.25Kg (16AH) or 3.0Kg (22AH)
- Comes as a kit with weather resistant, robust neoprene carry case & strap
- T-bar adapter lead for battery connection and 12V Charger.
- Excellent recovery from deep discharge without damaging battery longevity
- Latest proven LifePo4 Lithium technology, not only efficient but green as well!
- Compatible with vast majority of electric golf trolley's on the market today!
- Conforms to applicable EU safety standards
- Two year warranty
