KINETIX BATTERIES

KINETIX BATTERIES

VRLA Batteries - Deep Cycle Series

VRLA Deep Cycle

Outstanding Features:

Designed specifically for use with Electric Mobility vehicles for the Disabled including Mobility Scooters, Power Chairs, Stair Lifts and others. Whatever size, make or model of your vehicle, we should have a battery to do the job! Other applications include Solar PV Systems, Marine and Leisure, Golf Trolleys, Medical Devices, Electric Tools and more!

These batteries are genuine **Deep Cycle** with very heavy non porous battery plates designed to withstand major repeated discharging and charging cycles in operation and offering exceptional long life under this type of continued use.

- VRLA Valve Regulated Sealed Lead Acid - Premium **Deep Cycle**
- AGM Non spillable construction - prevents electrolyte leakage
- Oxygen recombination technology for maintenance free operation
- ABS Containers and covers for strength and durability
- Safety valve to prevent the possibility of explosion
- Heavy duty non porous plates for exceptional Discharge recovery under repeated cycles and very long service life.
- Proven technology with high performance
- Manufactured to OE specification
- Fully guaranteed

VRLA DC Series applications:

Electric Mobility Scooters
Powered Wheelchairs
Electric Golf Trolleys
Solar Photo Voltaic Systems
Medical Devices
Electric Tools
Stair Lifts
Lawn Mowers
Security systems
Fire Systems
Emergency Lighting
