

Lithium-Ion (LiFePo4) Electric Golf Trolley Batteries

KINETIX latest range of ultra long life, ultra compact & light weight, Lithium-Ion (LiFePo4) Golf Trolley batteries. The standard (16AH) model should achieve 18 Holes on a single charge whilst the larger 18AH and 22AH versions are capable of 27 and 36 holes respectively, subject to conditions.*

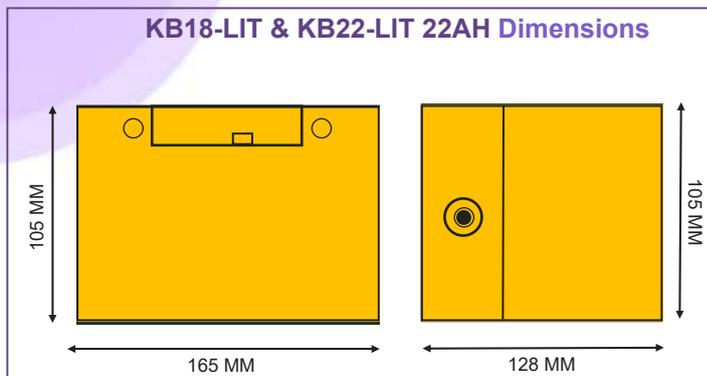

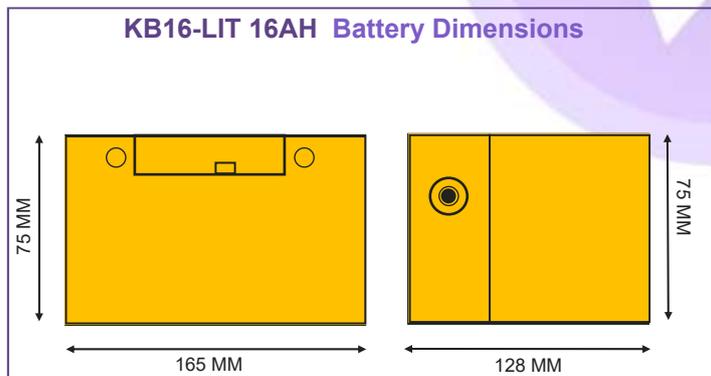

With a design life equivalent to around 2000 rounds of Golf, they offer more than five times the life span of traditional Lead Acid AGM batteries yet are only a quarter of the weight!

They are compatible with the vast majority of Golf Trolley's on the market today including established names such as Powakaddy, Motocaddy, Hill Billy and more! Comes as kit supplied with neoprene weather resistant carry case, T-Bar adapter and battery Charger.

Superb performance, durability and longevity, combined with ultra light weight portability. A must for the serious Golfer!

Outstanding features:

- **LiFePo4** Lithium Ion batteries: 12.8V - **16AH (18Hole) / 18AH (27 Hole) / 22AH (36 Hole)**
- Design life approximating to 2000 charging cycles.
- Incredibly light weight at only 2.25 - 3.0 Kg, model dependent
- Comes as a kit with weather resistant, robust neoprene carry case & strap
- T-bar to Torberry adapter lead for battery connection and charger.
- Excellent recovery from deep discharge without damaging battery longevity
- Latest proven LifePo4 Lithium technology, not only efficient but green as well!
- Compatible with vast majority of electric golf trolley's on the market today!
- 4aH, 14.4V 4 stage 'smart' battery charger for fast, reliable & safe charging!
- Two year warranty
