

RG-6/TWN Satellite TV 'Twin' Coaxial Cable (Shotgun)

RG6-TWN

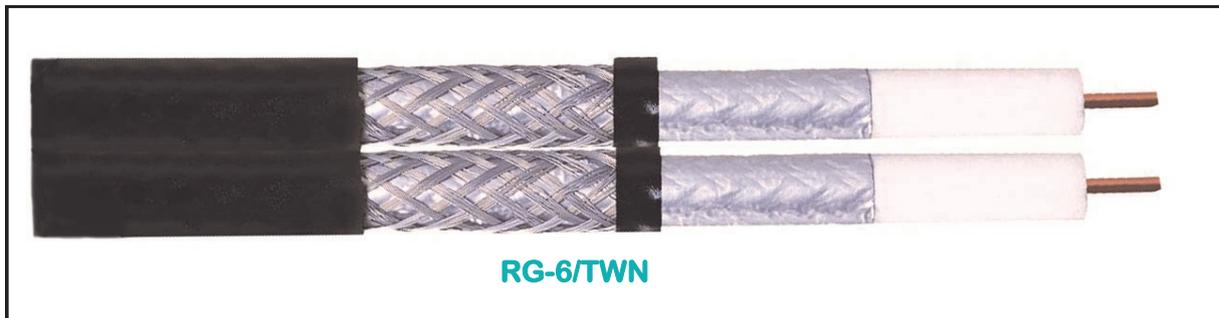

RG-6/TWN TWIN SATELLITE COAXIAL CABLE

Twin, 75 ohm coaxial 'Shotgun' cable designed to cover most high frequency data and signal transmission applications including CATV, Digital Satellite TV and more. Double shielded & with Foam PE dielectric for protection against moisture migration and to optimise flexibility.

Features:

- RG6 Satellite Twin coaxial 'shotgun' cable
- 75 Ohm Impedance
- Two x 1.0mm CCS (Copper Clad Steel) conductors
- Foam PE insulation to prevent moisture migration
- Double shielding Aluminium Foil + Braid
- PVC Outer Jacket in Black (optional White)
- Suitable for indoor or Outdoor applications
- Supplied on 100m Reel

RG-6/TWN

SPECIFICATION	RG6 Satellite TV Coaxial cable
Ref code	RG-6/TWN
Type	CATV / Digital Satellite TV Coaxial Cable
Impedance	75 Ohm
Centre Core	2 x CCS (Copper Clad Steel) conductors 1.02mm (18AWG)
Insulation	Foam PE (Polyethylene) insulator, 4.6mm
Foil Shield	Aluminium Foil shielding (100% Coverage)
Braided Shield	64 x 0.12mm Aluminium Braiding
Jacket	PVC (Polyvinyl Chloride) Jacket 6.6mm, Black (optional White)
Reel	100m (Wooden Reel)
Compliance	CPR / RoHS / CE
