

RG-6/U

RG-6/U TV & SATELLITE COAXIAL CABLE

75 ohm coaxial cable designed to cover most high frequency data and signal transmission applications including CATV, Digital Satellite TV and more. Double shielded & with Foam PE dielectric for protection against moisture migration and to optimise flexibility.

Features:

- RG6 Satellite coaxial cable
- 75 Ohm Impedance
- 1.0mm CCS (Copper Clad Steel) conductor
- Foam PE insulation to prevent moisture migration
- Double shielding Aluminium Foil + Braid
- PVC Outer Jacket in Black (optional White)
- Suitable for indoor or Outdoor applications
- Supplied on 100m Reel

RG6/U

SPECIFICATION	RG6 Satellite TV Coaxial cable
Ref code	RG-6/U
Type	Satellite TV Coaxial Cable, Digital / Analogue or Cable TV
Impedance	75 Ohm
Centre Core	CCS (Copper Clad Steel) conductor 1.02mm (18AWG)
Insulation	Foam PE (Polyethylene) insulator, 4.6mm
Foil Shield	Aluminium Foil shield (100% Coverage)
Braided Shield	64 x 0.12mm Aluminium Braiding
Jacket	PVC (Polyvinyl Chloride) Jacket 6.6mm, Black (optional White)
Reel	100m (robust cardboard reel)
Compliance	CPR / RoHS / CE
