

VRLA - AGM Sealed Lead Acid Batteries.

Our **KINETIX** brand VRLA batteries are renowned for quality, durability and performance. Ideal for a range of StandBy applications including for Security & Fire Systems, Emergency lighting, Uninterruptable Power Supplies and more!

Outstanding Features:

- VRLA Sealed Lead Acid - Maintenance free
- Ideal for Security System / Emergency lighting back-up applications
- AGM Non spillable construction - prevents electrolyte leakage
- Oxygen recombination technology for maintenance free operation
- ABS Containers and covers
- Safety valve to prevent possibility of explosion
- Exceptional deep discharge recovery & performance
- Low self discharge characteristics
- Long service life, typically 3 –5 year design life
