KTX100-TWN Twin Premium Satellite TV Coaxial Cable
(CT100 / WF100 Equivalent)

KTX100-TWN

KTX100-TWN TV & SATELLITE COAX CABLE

Premium specification Twin 75 ohm Coaxial cable designed to cover most high frequency data and signal transmission applications including CATV, Digital Satellite TV and more

Solid copper conductor, Double shielded with copper foil screening and Foam PE dielectric for protection against moisture migration and to optimise flexibility

Features:

- KTX100-TWN Premium 'Twin' Satellite Coaxial cable
- (CT100 / WF100 Equivalent)
- 75 Ohm Impedance
- 2 x 1.0mm Solid Bare Copper conductors
- Foam PE insulation to prevent moisture migration
- Double shielding with Copper Foil + CCA Braiding
- PVC Outer Jacket in Black (optional White)
- Suitable for indoor or Outdoor applications
- Supplied on 100m Reel

KTX100-TWN

SPECIFICATION	KTX100-TWN Satellite TV Coaxial cable
Ref code	KTX100-TWN
Type	'Twin' Satellite TV Coax Cable, Digital / Analogue or Cable TV
Impedance	75 Ohm
Centre Core	2 x Solid Copper conductors 1.02mm (18AWG)
Insulation	Foam PE (Polyethylene) insulator, 4.6mm
Foil Shield	Copper Foil shield (100% Coverage)
Braided Shield	64 x 0.12mm CCA Braiding
Jacket	PVC (Polyvinyl Chloride) Jacket 6.6mm, Black (optional White)
Reel	100m (robust wooden reel)
Compliance	CPR / RoHS / CE
